Assignment Instructions

Deadline: 16 November 2026 (11:59PM)

For submission requirements, please refer to the project handout

project_handout.pdf

Group Registration
Form a group of no more than three students and register your group through the Groups area in NTULearn. Agree on your teammates before registering. Each member must enrol individually into the same project group.

Submission
Only the leader needs to submit the assignment on behalf of the group. Please include the member names and the group number on the front cover of the report.

The Use of AI
You may use AI tools, such as ChatGPT, Claude, Gemini, Copilot, or other coding/writing assistants, to support your learning and project work. However, these tools must be used responsibly, accountably, and transparently.

You remain fully responsible for the correctness, originality, and integrity of all submitted work.

In your group project, your report should include a session to acknowledge and declare the use of GenAI tools.

See the NTU policy (https://www.ntu.edu.sg/research/resources/use-of-gai-in-research) here.

FAQ
1. Can I do the project alone?
We encourage you to form a group to share the workload. But if you can't find any members, you can work on the project yourself.

2. Are the reference/cover/content pages within the 10-page limit?
No. The 10-page limit excludes references, content page, cover page, and appendix.

3. Can I propose my own project topic?
You are encouraged to explore other ideas or more advanced methods beyond the proposed topics in the handout.

4. Can I use open source libraries?

You can but you need to cite them properly. In addition, you cannot simply just run existing models and generate the results and assume they are yours (we can discover that). You will need to train a model from scratch or at least fine-tune an existing one to get better results. And add your own innovation/idea.

5. Do I need to submit a presentation video?
A presentation video is not needed. Just the report and code.

6. Where should I get help?
You are requested to post general queries on the assignment on the Discussion Board. Please email any questions specific to you to cx4042@e.ntu.edu.sg.
